Address:

Barquisimeto, Lara State - Venezuela

LANGUAGES

Spanish: Native (Venezuela)

English: Advanced

TECH STACK

LANGUAGES

TypeScript, JavaScript, HTML, CSS

FRAMEWORKS & TOOLS

React, Next.js, Node.js, Strapi v5, Claude, OpenCode

DATABASES & DEVOPS

PostgreSQL, MySQL, Docker, Git, GitHub, Azure DevOps

SECURITY & TESTING

JWT, bcrypt, reCAPTCHA, Jest, Swagger, WebSockets

PROJECTS

LUPEA - SAAS

Tech stack: Next.js, Strapi v5, TypeScript, PostgreSQL, WebSockets, JWT

URL: <https://www.lupea.app/>

CHAU DEUDAS - FINTECH

Tech stack: Next.js, TypeScript, .NET Core, C#, MySQL, reCAPTCHA

URL: <https://www.chaudeudas.com.uy/>

DEVELOFT SAS - WEBSITE

Tech stack: Next.js, NestJS, TypeScript, PostgreSQL

URL: <https://www.devolsoft.dev/>

ALGIRA - RAFFLE WEB APP

Tech stack: Next.js, Strapi v5, TypeScript, PostgreSQL, WebSockets, JWT

URL: <https://algira-web.vercel.app/>

EDUCATION

B.S. in Software Engineering

"Lisandro Alvarado" Central Western University (UCLA),
Barquisimeto, Venezuela | 2019

PROFESSIONAL EXPERIENCE

Fullstack Web Developer

Devolsoft SAS (Remote, Uruguay) | 02/2023 - 05/2026

- Architected, developed, and maintained highly scalable full-stack web applications utilizing TypeScript, Next.js, and NestJS, drastically improving application performance and frontend state management in production environments.
- Designed and implemented secure, robust RESTful APIs with NestJS, seamlessly integrating PostgreSQL/MySQL databases while managing enterprise authentication through custom JWT implementations and bcrypt.
- Built responsive, component-driven user interfaces in React and Next.js, focusing heavily on responsive web design, usability, core web vitals, and clean architecture patterns.
- Containerized microservices and applications using Docker, ensuring environment configuration compliance and building fully reproducible infrastructure setups across stages.

Web Developer

Marna Corporate Group C.A., Barquisimeto, Venezuela | 10/2018 - 05/2019

- Engineered and styled lightweight web applications using HTML, CSS, JavaScript, and UI kits such as Bootstrap and Material Kit.
- Implemented dynamic client-side interactions and asynchronous data fetching using AJAX, jQuery, and JSON schemas linked to MongoDB databases.
- Integrated data visualization layers using interactive charting libraries to map and render analytical platform telemetry.

Professor of English

Zifeng International Language School C.A., Barquisimeto, Venezuela | 10/2022 - 10/2023

Computer equipment technician

Copikon Venezuela C.A., Barquisimeto, Venezuela | 09/2020 - 01/2023

- Review, diagnosis, maintenance, conditioning and repair of computer equipment.
- Registration, updating and inventory management of electronic equipment through Microsoft Excel 2016.

CERTIFICATIONS

EF SET English Certificate (C1 Advanced)

EC, Online - 02/2020

Java programmer

CADIFI, Barquisimeto - 06/2016
